

CHEERS TO 40+ YEARS!

After a career spanning over 4 decades, 3 of which have been as founding principal of MG Engineering, Michael Marino will begin a new chapter in his life. Mike will begin his retirement effective January 1, 2021.

We wish him a very happy and fulfilling retirement!

From an early age Mike was surrounded by a family of engineers. He commenced his career working in his father's firm, Lehr Associates, alongside two uncles, a brother and several cousins. As principal of MGE, Mike has managed various aspects of the company's high level administration including business development, marketing, and operations management. Throughout his career Mike has completed projects nationwide specializing in corporate interiors, trading facilities, charter schools, and newly constructed/renovated commercial, residential, and hotel projects. Most recently he was instrumental in the opening of our Miami office and cultivating our presence in the south Florida market.

Although Mike will be enjoying some well deserved downtime, we are pleased that he has agreed to remain connected and accessible to MGE. He will serve as "Consigliere" to the leadership team and will provide us with support and guidance as needed. MGE partners remain committed to providing hands-on engineering services to our clients and continue to "engineer success".

Please join us in congratulating Mike on his new journey and we raise our glasses to salute him and his contributions to the engineering industry!

"So, on January 1, 2021, a new chapter begins not only for me, but also for all of humanity. The world has been humbled by the power of a micro-organism. We are all ready to turn the page in our journey and start a new chapter in a world that we hope will be kind and full of love."

- Michael Marino
