

JANUARY 2020

NEW YEAR, NEW VENTURE

MG Engineering (MGE) is excited to announce that our firm has acquired, Kallen & Lemelson Consulting Engineers, LLP (K&L) effective, February 1, 2020. For those of you not familiar, K&L is a 60+ year old, MEP engineering firm with expertise in the healthcare, higher education and institutional markets. In addition, their extensive experience covers a wide range of sectors including, central plant, K-12, nursing home/assisted living, laboratory and research, residential, commercial, governmental and cultural/recreational.

This move will enable MGE to have an even stronger presence within the industry, extend our reach to these other markets and provide our clients with an array of enhanced engineering services and knowledge base. The K&L staff's strong technical proficiency was an important factor in our decision to acquire the firm and bolsters our roster of already well rounded and talented personnel.

We are pleased to inform you that both K&L partners Richard Meilan, P.E., LEED AP and Steven J. DiFlora, P.E., LEED AP will join MGE as Senior Executive Directors, and together with their current staff, will be representing the K&L Group, as a division of MGE. Our new division will reside in-house as part of the larger collective within MGE's multi floor headquarters located at 116 West 32nd Street, New York, NY.

With the completion of this merger we will now be a 200-person firm positioned to handle projects of all types and sizes and throughout 30 states nationwide. What an amazing way to kick off the new decade!

"We engineer success", is not just our tagline. It is our way of life. We are thrilled to share our news, look forward to continuing to provide you with the best in class engineering services with our newly expanded sectors and expertise, and welcome K&L staff and clients to the MGE family.

Here is to a happy, healthy and prosperous 2020.
